

product description

joint block for SCALANCE W, X, 2-pole, push-in terminals, power supply, signaling contact

2-pole Spring-loaded terminal block for Signaling contact (24 V DC); for SCALANCE X/W; power supply for XF-200BA; 1 pack=5 units; spare part.

suitability for use

Power supply for SCALANCE X-005, signaling contact for SCALANCE W-700, SCALANCE X-100, X-200, X-300, X-400

interfaces	
type of electrical connection	Push-in
mechanical data	
number of poles	2
design, dimensions and weights	
width	10.16 mm
terminal contact spacing	5.08 mm
standards, specifications, approvals	
reference code	XGA
• according to IEC 81346-2:2019

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry . Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert . (V4.7)
